In re: W284AD, New Albany, IN
BPFT-20121030ABI
Facility ID No. 38462

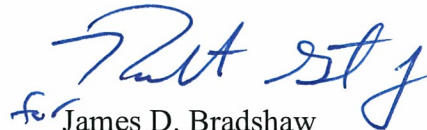

Dear Applicant:

This letter refers to the above-captioned translator application for W284AD, New Albany, Indiana.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1204(a) with respect to W284AM (BLFT-19981202TE), Middletown, Kentucky. Section 74.1204(a) states that an application for an FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. Specifically, the proposed interfering contour (40 dBu) would overlap the protected contour (60 dBu) of W284AM. Therefore, the application will be dismissed.

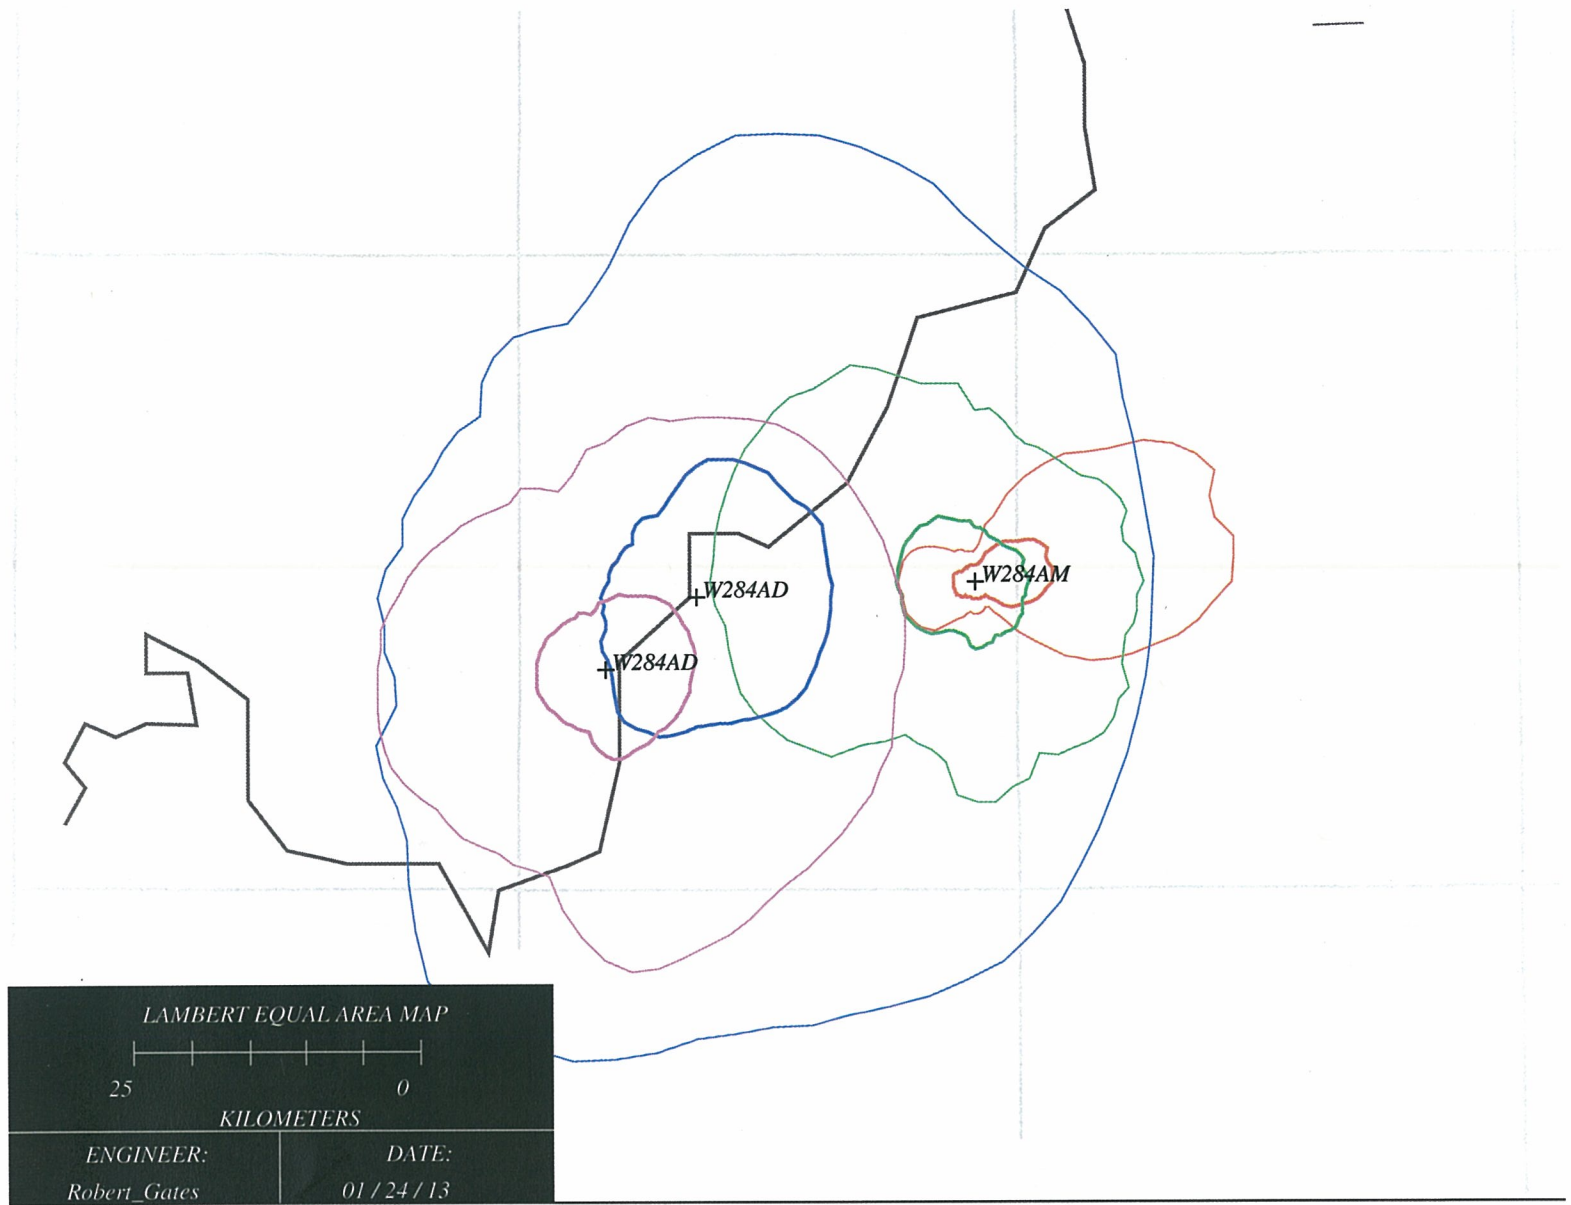

In light of the above, the application BPFT-20121030ABI filed by Anchor Radio of Louisville, LLC is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
